

Getting Started Assignment

Assignment

1. Why do we start learning a programming language with “Hello World”?

"Hello World" is a straightforward introduction that guarantees an understanding of language and a successful run of the programme at first.

2. How is the use of comments and how do you write comments in HTML?

HTML comments are used for giving explanatory notes. Put them in writing `<!-- as this -->` To put into your code non-displayed data.

3. What are elements, tags, and attributes and

the difference between them.

*Elements: Building blocks of HTML, like sentences or titles.

*Tags: HTML code with elements, such <p> for paragraphs.

*Attributes: Extra information about items, like class or id, improving how they work.

4. Briefly explain what HTML entities are.

Special characters are encoded by HTML things, which make sure web browsers show and read them properly.
